

An Open Letter to President Donald Trump

THE PROVIDENTIAL SPIRIT GUIDING MAGA CAN TRANSFORM THE WHOLE WORLD

Dear President Trump,

Thank you for your perseverance in overcoming all the seemingly insurmountable obstacles on the way to returning to the White House. In your great and inspiring second inaugural address on January 20, 2025, you said that when you escaped death from an assassin's bullet in Pennsylvania: "I felt then and believe even more so now that my life was saved for a reason. I was saved by God to make America great again."

We are writing to you today because we believe you are indeed a providential figure, and that your mandate from Heaven extends far beyond the shores of America to all corners of the earth. As you pointed out in your speech, America has been exceptional from its founding. Indeed, our Founders experienced the spirit of divine purpose and guidance when they signed the Declaration of Independence, and successive generations of Americans have built on that providential foundation by creating the greatest nation on earth—while defeating slavery at home as well as fascism and communism abroad.

At every stage, remarkable leaders have come forward to guide our nation, from Washington to Lincoln and Reagan. But none of them has been able to eliminate completely the scourge of evil totalitarians across the globe, tyrants who oppress their own people while spreading suffering abroad through wars and terrorism.

Over time, the enemies of goodness and peace have often been deterred but rarely thoroughly defeated. (The unconditional surrender of Germany and Japan in WWII was a telling exception.) Today there are still billions of people suffering under cruel regimes in countries like China, Russia, North Korea, Iran, Cuba and Venezuela, countries that collaborate with one another in a new axis of evil. Those oppressed people deserve to be liberated!

Only America has the power and authority to see that the forces of good prevail in the world. America should not be a global policeman, but it should always be the champion of freedom from oppression, of just government and individual human rights. In your first term, you showed that this is possible without firing a shot! You used America's enormous power to create the historic Abraham Accords in the Middle East, and to curb the most egregious behavior by rulers everywhere.

Mr. President, we believe that under your leadership the bad actors of the world can finally be defeated, from Russia in its barbaric invasion of Ukraine to China threatening Taiwan and Iran attacking Israel. The civilized world has the means to achieve this, but only with the blessing and support of our Creator channeled through your resolute leadership can such a historic transformation be realized. In this way the MAGA vision will not only become a reality in America, but also be the means for sharing these blessings with the rest of the world. The providential thread running through history and woven into the hearts of our freedom-loving Founders is now seeking its consummation in your presidency.
